Kumamoto

t2m days\_increasing\_by\_5

This line plot displays the 't2m days\_increasing\_by\_5' metric for the Kumamoto region across three time points (0, 1, and 2 days). The y-axis represents the count of days, ranging from 0 to 10. Multiple colored lines (red, blue, and purple) represent individual samples. At day 0, most samples start at 0, with a few at 1 or 2. By day 1, the values are mostly 0 or 1. By day 2, the values are mostly 0 or 1, with one sample reaching 2. The lines show a general trend of decreasing or staying at 0 over the 3-day period.
